

HEI-MEX

Urethane paint that can be painted
and peeled off

HEISEN GROUP
Since 1920

Peelable (Hei-Mex 6509 · 6510)

The peelable paint called Hei-Mex 6509 or Hei-Mex 6510 forms a tough, flexible film that utilize the properties of urethane resins.

It has little effect on substrate material, and residue hardly remains on the surface.

Because of its water-based paint, it's friendly to the environment surrounding workers.

Application image

Peeling image

[Main applications]
Prevention of scratches and stains on surfaces of resins and metals

[Main materials with good releasability]
ABS/PP/PE/Acrylic/Glass/Iron/
Aluminum

Product Name	Hei-Mex 6509	Hei-Mex 6510
Appearance	Transparent (Colorable)	Transparent (Colorable)
Tactile feeling	Hard coating	Soft coating
Solid content	27 %	45 %
Tensile strength	22 MPa	5 MPa
Elongation at break	50 %	750 %
Features	UV resistant	High heat resistance
